Discussion on Coursera Agreement:

City Attorney Levan and Council clarified for the public that the contract with Coursera would be \$50,000 for one year of service during which time up to 125 licenses and 250 Google Certificate Scholarships can be used. The licenses are good for one year from the City's license start date, not the date on which the individual licenses begin being used. The license start date can be within 90 days of the signing of the contract. City Attorney Levan will clarify this information and has been directed by Council to finalize and sign the contract with the latest possible license start date. It was also clarified that if a resident signs up after the start date of the licenses, they will not have the full twelve months to utilize the services, only whatever time is remaining until the City's one year anniversary. If the resident has not finished the training at the end of the City's one year period, they would need to pay out of their own pocket if they would like additional time to complete the training.
